Chart Research

- [08 Jan 1944](#) First Juke Box chart published in Billboard magazine (through 17 June 1957).
- [15 May 1948](#) First Best Sellers chart (through 13 October 1958).
- [10 Dec 1949](#) First Disc Jockey (Airplay) chart (through 13 October 1958).
- [20 Oct 1958](#) First Hot Country Singles chart (which combines Record Sales, Radio Airplay and Juke Box plays).
- [20 Jan 1990](#) Chart is based on actual radio airplay from Broadcast Data Systems (BDS), instead of sales reports and radio playlists.
- [20 Oct 2012](#) The Hot Country Singles chart is now based on digital downloads and streaming data which are combined with airplay from all radio formats to determine position.
- [20 Oct 2012](#) The Country Airplay chart is created by Billboard using the previous methodology (airplay exclusively from country radio stations).

MULTIPLE COUNTRY CHARTS 1948 - 1958 / 2012 - 2015

The single's chart debut date in this book is taken from the chart on which it first appeared if it hit more than one of the following country singles charts published from 1948-58 and from 2012-15: Best Sellers, Jockeys, Juke Boxes, Hot Country Songs and Country Airplay. The single's highest position listed in the peak position column is taken from the chart on which it achieved its highest ranking. Also, that single's total weeks at #1 position are taken from the chart on which it achieved its highest total.

The Heavy Edition of this book also contains the single's total weeks charted.

#1 HITS

This section lists, in chronological order, the Number One Singles from January 1944 to December 2015.

For the years 1948 through 1958 and the period from October 2012 to December 2015 (when *Billboard* published more than one weekly country chart) special columns are used to show the week's each # 1 record spent on each of the various country charts.

The date shown is the earliest date that a record hit # 1 on any of the country charts. The weeks **bold** column lists the total weeks at # 1, from whichever chart it achieved its highest total. This total is not a combined total from the various county charts.

Because of the multiple charts used in our research, some dates are duplicated, as certain # 1 hits may have peaked on the same week on different charts; therefore, the total weeks for each year may calculate out to more than 52.

ARTIST INDEX

In this section of **Country Hit Singles**, we list every record that has hit the Country Top Ten singles chart from 8 January 1944 to 26 December 2015.

The information is presented alphabetically by artist's first name (instead of the surname), and then chronologically for each hit.

Each hit single is catalogued with the following information: date disc first hit the chart, title of hit, highest position the hit reached on the chart, and total number of weeks spent at #1.

The Heavy Edition also contains the total number of weeks spent on the chart.

Symbols:

- ① Number One Hit
- ▲ Top Three Hit

Collaborations:

We have credited collaborative hits under the entries of all the artists involved. So, for example, you will find Eddie Rabbitt and Crystal Gayle's 1982 hit, "You And I", listed twice - once under Eddie Rabbitt and once under Crystal Gayle. The points of this hit are given to both artists.
